

Gaskets and Gasket sets suitable for SUBARU EJ204

The EJ engine is a series of four-stroke engines from Subaru. They were introduced in 1989 and replaced the EA engine. The EJ series was the mainstay of the Subaru engine line. All engines in this series are 16-valve four-cylinder boxer engines available in single or double overhead camshaft (SOHC or DOHC) configurations. There are naturally aspirated and turbocharged engines with an output of 72 to 231 kW (97 to 314 hp).

The EJ204 engine is a naturally aspirated DOHC engine with an output of 103-121 kW (140-165 hp).
